

<b>CENTRAL PROCESSING UNIT</b>	Where all of the information you put into the computer is stored.
<b>CLICKING</b>	Pointing to something on the screen and then pushing the button on the mouse is called clicking.
<b>CURSOR</b>	The line or arrow that follows your mouse movement
<b>DESKTOP</b>	The screen you see first when your computer turns on.
<b>DISK DRIVE</b>	The place where you put your disk so that you can save files on it
<b>DISKS</b>	Where you save your work, like recording on a video tape
<b>FILE</b>	a piece of computer information such as a document or part of a computer program.
<b>FOLDER</b>	Just like a file folder in a filing cabinet, a file is where documents (letters, spreadsheets, etc.) are kept.
<b>HARDWARE</b>	All the parts of the computer that you can touch: the monitor, CPU, printer, mouse, and keyboard.
<b>ICON</b>	Symbols or pictures that you can click on to perform an action. Each program has its own icon.
<b>OPERATING SYSTEM</b>	An important program that makes everything in the computer work.
<b>KEYBOARD</b>	Like a typewriter, it's where you type and enter numbers. It is one way to tell the computer what you want it to do.
<b>MONITOR</b>	Your computer's screen
<b>MOUSE</b>	The tool you move with your hand to tell the computer what to do. For example you can open programs and files by clicking or double clicking.
